CITY OF HERMOSA BEACH, CALIFORNIA

GREEN TASK FORCE

(Eighteen Month Term)

This Task Force serves in an advisory capacity to the City Council and City Staff regarding 'green issues.' Work programs include waste reduction, re-use and recycling, water conservation, storm water management, sustainable transportation, sustainable design and energy efficiency in residential, commercial and public buildings, and developing a climate action plan ('Cool Cities'). The Task Force will work with the City, agencies and organization to address policies, services and programs on these topics, subject to City Council approval.
